

Draft specification

Workbench module 6300HA-CT, width 79 cm

Manufacturer: Granberg

The combination includes the following products

Wall mounted, motorised workbench incl. worktop and 103 mm front rim.

The module is delivered complete.

The modules have a 10 mm shorter width to automatically give 5 mm gap on either side of the unit for the up and down movement. They are also 15 mm shallower in depth to make room for splash protection/tiles.

The anti-pinch strip is placed under the front edge of the worktop. If anything touches the strip, the lift unit stops.

Electronics and motor system "Plug and Play".

The module can be integrated into environments from any cabinet manufacturer.
